Bringing Iron to the Front

It is a well-known fact that men of courage, men with brawn and nerve to "buck the line" and go 'over-the-top" have rich, red blood coursing through their veins. This blood must contain about as much iron as there is in a common ten-penny nail. The red blood corpuscles must be fed on iron to have that rich red color. The nerves are fed on the red blood corpuscles, so when you feel tired, worn out before the day is half over, when pimples show on neck or face, it's the danger signal, time to repair the blood-cells. It is fortunate that Dr. Pierce and his staff of able physicians at the Surgical Institute in Buffalo, N. Y., have found a combination of iron and herbal extracts that gives the stomach tone, fortifies the blood with iron in a form that it can be taken into the system. You need energy and "pep" every day. You can acquire it quickly by taking "Irontic." This latest discovery called, "Iron-tic," can be had at most drug stores, in tablet form, at sixty cents the vial. Send Doctor Pierce's Surgical Institute in Buffalo, N. Y., ten cents for trial package.
